

Instructions for OBJECTIVE part of final exam

Objective (10 points.)

Objective is comprehensive, 40 questions (MULTIPLE CHOICE & TRUE/FALSE), 70 minutes.

Once you click, you have to complete.

FINAL OBJECTIVE part includes material from the midterm exam, as well as material after midterm. In the OBJECTIVE EXAM columns (yellow font columns of FINALS WEEK table) you will find

1. Notes for all later readings except the Prasad and Osoko Readings on Software failures.
2. A link to the midterm for you to review (you should be able to see your midterm answers and correct answers).
3. Link to the exam.
4. Links to the Software Failure readings:
 - Rantings of a Quailly Conscious Software Engineer, by Samuel Prasad
 - Preventing Enterprise Software Failure by Abayomi Oloko.

Study these two readings. Read them very carefully, particularly for statistics, for Prasad's views about software failures. and Oloko's principles of defensive programming.
